## **RTFM Switch**

## **RTFM Access**

The RTFM switch access will be on the top side of the horn hidden under a screw that will be used to keep the unit secured. To access the RTFM, complete the following steps:

1. Remove the screw to gain access to the RTFM button (see the figure below).

2. Use a paper clip to feed through the hole to press the RTFM button (see the figure below).

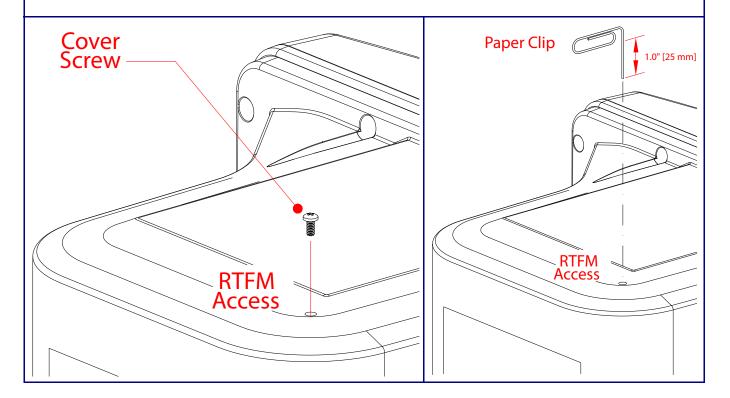

### Announce the IP Address

To broadcast the device's current IP address, press and hold the RTFM switch for a couple of seconds and then release it.

### **Restore the Factory Default Settings**

To restore the factory defaults, complete the following steps:

- 1. Press and hold the RTFM switch until you hear the device announce the words, "restoring defaults" and "rebooting".
- 2. Release the RTFM switch. The device will be restored to the factory default settings.
