

### Peavey CS 800 Amplifier

or

### V3 Paging Server Connections

### Notes

The CyberData V3 Paging Server's RCA Line Out can connect to one Channel A input on the Peavey CS 800 Amplifier using a phono cable with male plugs.

Link the unused Channel A input to a Channel B input using a phone cable with male plugs per the Peavey CS 800 Amplifier diagram on the left. Set the DDT and Mode switches according to the diagram.
