### **RTFM Access**

The RTFM switch access will be on the top side of the horn hidden under a screw that will be used to keep the unit IP66 sealed with the gasket washer. To access the RTFM, complete the following steps:

- 1. Remove the RTFM cover screw to gain access to the RTFM switch (see the figure below).
- 2. Use a paper clip to feed through the hole to press the RTFM switch (see the figure below).

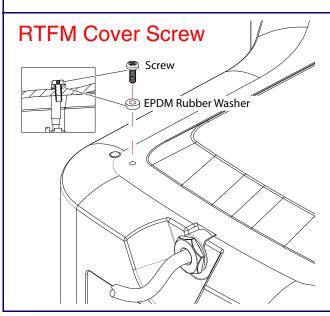

#### **Announce the IP Address**

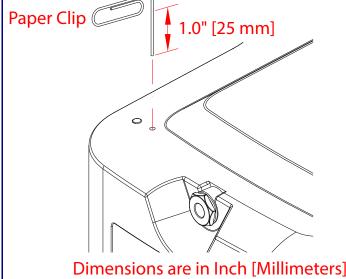

To broadcast the device's current IP address, press and hold the RTFM switch for a couple of seconds and then release

### **Restore the Factory Default Settings**

To restore the factory defaults, complete the following steps:

- 1. Press and hold the RTFM switch until you hear the device announce the words, "restoring defaults" and "rebooting".
- 2. Release the RTFM switch. The device will be restored to the factory default settings.
