IPv4 Link Local
IPv4 Link Local

a. Default if there is not a DHCP server present.

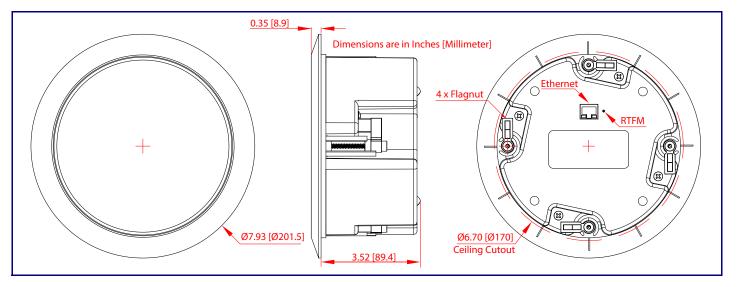

WARNING: This product should be installed by a licensed electrician according to all local electrical and building codes. · WARNING: To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation

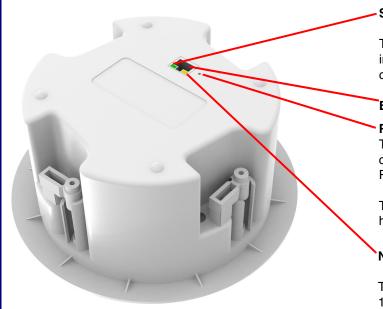

• WARNING: The PoE connector is intended for intra-building connections only and does not route to the outside plant.

## Dimensions

### Features

#### Speaker Network Link/Activity (Green)

The green Network Link/Activity LED comes on immediately to show that there is a good network connection, and then blinks to show network activity.

#### Ethernet Port

#### **RTFM Switch**

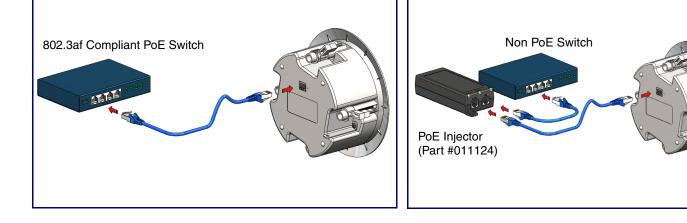

To broadcast a device's current IP address, use a paper clip or a similar instrument to press and release the RTFM switch within a five second window.

To restore a device's factory default settings, press and hold the **RTFM** switch for more than five seconds.

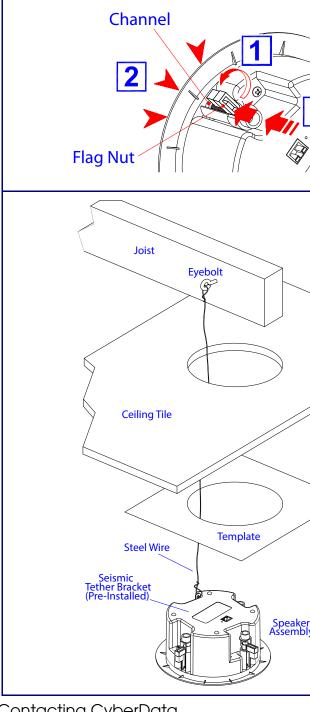

#### Network 100 Mb (Yellow)

The yellow 100 Mb LED is illuminated when the network 100 Mb link to the speaker is established.
