Installation Quick Reference  
**SIP Outdoor Call Button**  
SIP Compliant  
**011491**

Parameter	Factory Default Setting
IP Addressing	DHCP
IP Address <sup>a</sup>	10.10.10.10
Web Access Username	admin
Web Access Password	admin
Subnet Mask <sup>a</sup>	255.0.0.0
Default Gateway <sup>a</sup>	10.0.0.1

a. Default if there is not a DHCP server present.

Typical System Installation

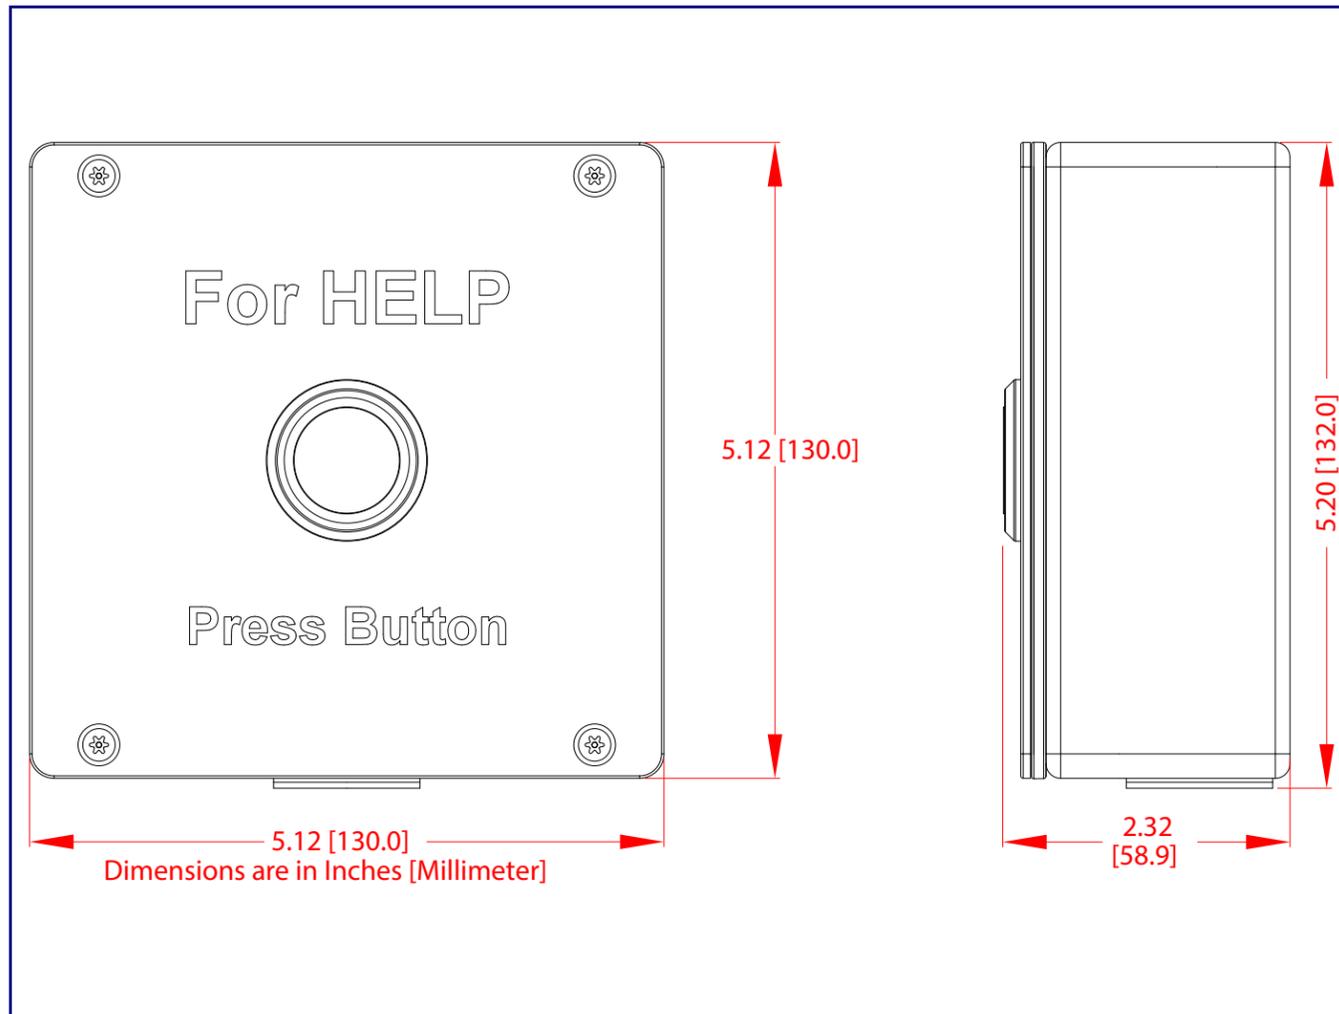

Getting Started

- Download the *SIP Outdoor Call Button Operations Guide* PDF file, from the SIP Outdoor Call Button product page at: <https://www.cyberdata.net/products/011491>
- Create a plan for the locations of your SIP Outdoor Call Buttons.
- **WARNING:** This product should be installed by a licensed electrician according to all local electrical and building codes.
- **WARNING:** To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation instructions.
- **WARNING:** The PoE connector is intended for intra-building connections only and does not route to the outside plant.
- **WARNING:** This enclosure is not rated for any AC voltages!

Parts

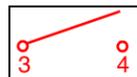

<p><b>Accessory Kit</b></p> <p>(4) Phillips Screws (4) Security Torx Screws</p> <p>Mounting Component Security Torx Key</p>	<p><b>Optional Accessories (for gooseneck mounting)</b></p> <p>(4) Carriage bolt nuts</p> <p>(4) Carriage bolts</p> <p>(4) Carriage bolt washers</p>	<p><b>Optional Accessories</b></p> <p>(1) 531085* Hole plug assembly</p>	<p><b>Sold Separately</b></p> <p>(1) 1/2-inch EMT compression connector with extra sealing locknut</p>

## Dimensions

## Terminal Block Connections

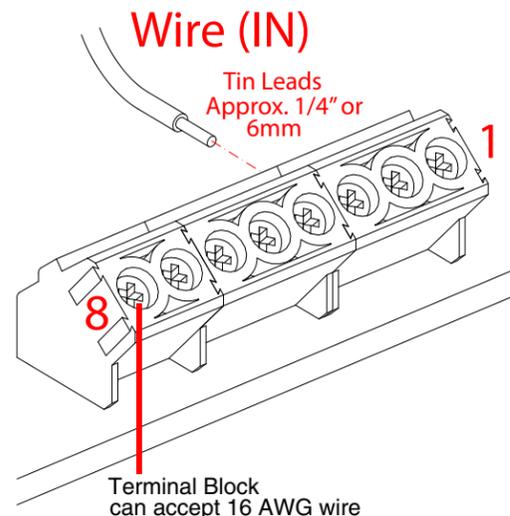

Alternate Power Input:  
 1 = +8 to +12VDC @ 1000mA Regulated Power Supply\*  
 2 = Power Ground\*

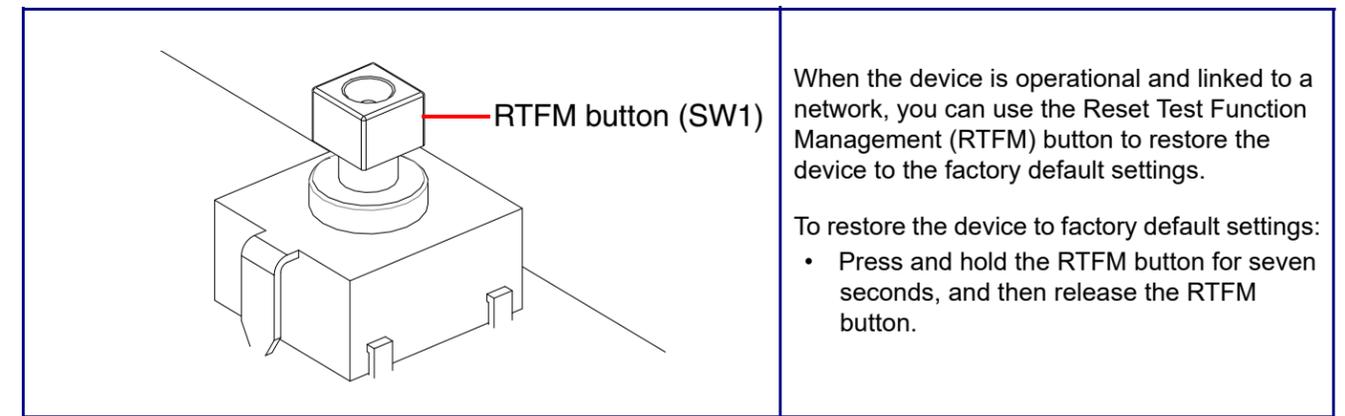

Relay Contact:  
 (1 A at 30 VDC for continuous loads)  
 3 = Relay Common  
 4 = Relay Normally Open Contact  
 5 = Sense Input  
 6 = Sense Ground  
 7 = Remote Switch "A"  
 8 = Remote Switch "B"

\*Contacts 1 and 2 on the terminal block are only for powering the device from a non-PoE 12VDC power source as an alternative to Network PoE power. Use of these contacts for any other purpose will damage the device and void the product warranty.

Use a 3.17 mm (1/8-inch) flat blade screwdriver for the terminal block screws

## RTFM Button

When the device is operational and linked to a network, you can use the Reset Test Function Management (RTFM) button to restore the device to the factory default settings.

To restore the device to factory default settings:

- Press and hold the RTFM button for seven seconds, and then release the RTFM button.

## Wall Mounting Options
