

CyberData's new SIP Large Button Outdoor Intercom makes two-way communication and access control effortless, especially for emergency situations. The SIP Large Button Outdoor Intercom delivers the same functions and features of the standard SIP Outdoor Intercom, with a new update that will improve user experience.

011567 SIP Large Button Outdoor Intercom

One of the standout features of the SIP Large Button Outdoor Intercom is its call button, which is specifically designed to provide reliable and precise contact, even in emergency situations where time is of the essence.

This feature is particularly beneficial for settings where users may have limited dexterity or mobility, such as medical facilities or assisted living residences.

Also Optimal For Industrial Areas Or Drive-Up Entry To Parking Lots And Garages

The "easy press" call button is optimal for industrial environments and drive-up entry to secure areas, providing an added layer of security for parking garages, warehouses, and other harsh environments.

011490 Outdoor Auxiliary RGB (Multi-Color) Strobe Kit, sold separately

In addition to its user-friendly features, the SIP Large Button Outdoor Intercom can be connected to an **Auxiliary Strobe Kit** - also from CyberData - for ADA-compliant visual notification.
