CyberData To Participate at Telin's ONE. Conference in Las Vegas

Exclusive Partner Event for 3CX Partners Will Provide Sales Strategies and Hands-on Training

Following the news in December 2023 that CyberData and Telin have formed a strategic partnership, CyberData announced they will participate at Telin's [ONE.Conference](#), a 2-day event crafted for tech experts and sales pros alike, and tailored for 3CX partners exclusively.

Scheduled for April 17-18 in Las Vegas, Telin's ONE. Conference is presented as the ultimate two-day training for 3CX partners. Elevate your 3CX Partnership! [ONE. Conference : The Ultimate Two-Day Training for 3CX Partners by TELIN Tickets, Wed, Apr 17, 2024 at 9:00 AM | Eventbrite](#)

Event Highlights Include:

- **3CX v20 Unveiled:** Dive into the revolutionary world of 3CX's latest version – Version 20! Explore new specifications, a sleek interface, innovative features, and updated prerequisites that set it apart from anything you've experienced before.
- **Technical Expertise:** Technical enthusiasts, gear up for a comprehensive training program specifically designed for 3CX v20. Delve into the intricacies of the new version with a total of 10 hours of training split between Basic and Advanced Certification.
- **Vendor Collaboration:** Discover how key partners like Snom, Cyberdata, and Telin have aligned their infrastructure to seamlessly integrate with 3CX v20. Be assured, that the transition is not just smooth but incredibly exciting!
- **Hands-on Training:** Technical Room attendees, immerse yourself in hands-on training sessions featuring Cyberdata and Snom. Gain the skills needed to navigate the new 3CX version effortlessly.
- **Sales Strategies:** Sales professionals, elevate your game with in-depth presentations on Telin's portfolio and exclusive insights into selling 3CX. Understand how Cyberdata and Snom can be key selling points for the new 3CX v20.

Telin's prowess in integrated telecom solutions merges seamlessly with CyberData's innovative hardware and software solutions. This new alliance redefines how businesses manage and enhance their communication infrastructures and keep people safe and informed through communication, ushering in a new era of seamless connectivity and reliability.
