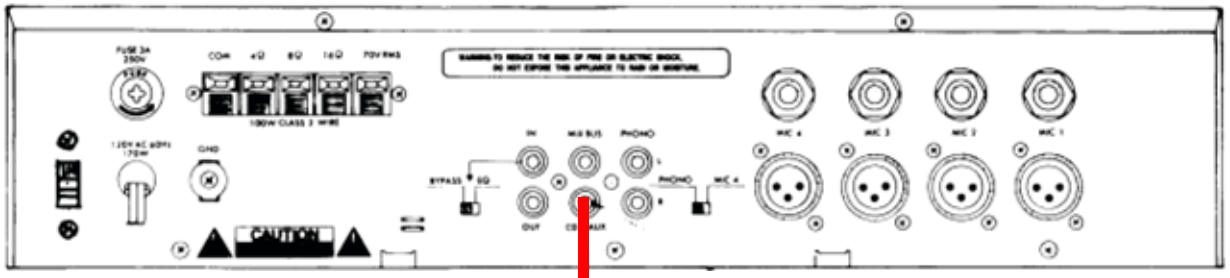
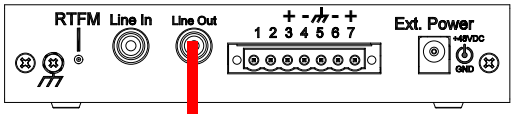
Pyramid PA-305



AUX/CD IN

VoIP Paging Server Connections



Notes

The end user selects **Edit** and then checks **enable line-out** for each multicast page group /zone for the audio to play through the RCA out.

If **Bypass DTMF** is selected on the **Device** page, under **Misc Settings**, then the Page group 0 would need to have the **Line-out** option checked.

2 conductor, shielded speaker wire is recommended.

Caution

Equipment Hazard: All equipment should be powered down prior to making wiring connections and changing switch positions.
