

TOA 700 Amplifier

Caution

Equipment Hazard: All equipment should be powered down prior to making wiring connections and changing switch positions.

To mute other channels when a page comes through set the channel 1 dip switch for Mute Send. This will mute any other input channels when audio is detected on this channel.

The DIP switch for Phantom Power will need to be set to **OFF** and the Line/Mic switch to **LINE**.

SIP Paging Adapter Connections

Page Port Connections

Pin	Description
1	Fault Sense Input (Common).
2	Fault Sense Input (Sense).
3	Positive 600-Ohm Audio Output ^a
4	Negative 600-Ohm Audio Output ^a
5	Audio Ground Reference.
6	Relay Contact - Common ^b
7	Relay Contact - Normally Open ^b

a. The 600-Ohm audio output of the page port is also suited for interfaces with lower input impedances.

b. 1 Amp at 30 VDC for continuous loads.

Notes

The DIP switch for Phantom Power will need to be set to **OFF** and the Line/Mic switch to **LINE**. To mute other channels when a page comes through set the channel 1 dip switch for Mute Send. This will mute any other input channels when audio is detected on this channel.

2-conductor, shielded speaker wire is recommended.
